

Dr. Nicolas Ziebarth

is an Assistant Professor at Cornell University, Ithaca, N.Y., United States

The DIW departments' concerted activities facilitate students to early translate their coursework into research. Thus, the program helped me develop the skills I needed to move forward with my research career.

Dr. Daniela Glocker

is Researcher at the OECD and the London School of Economics

The program gave me the opportunity to focus on applied and policy-relevant research. DIW Graduate Center provided an environment of interaction with fellow PhD students and colleagues that has proven invaluable for my own research and professional career.

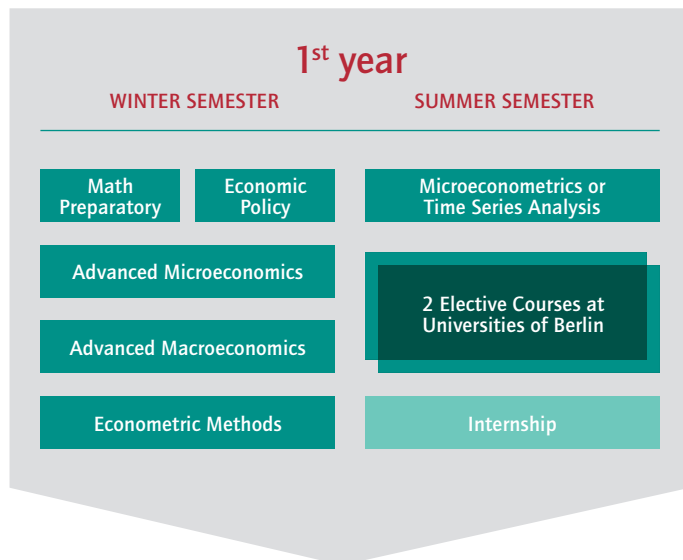

Dr. Geza Sapi

is Economist in the European Commission's Directorate-General for Competition, Chief Economist Team

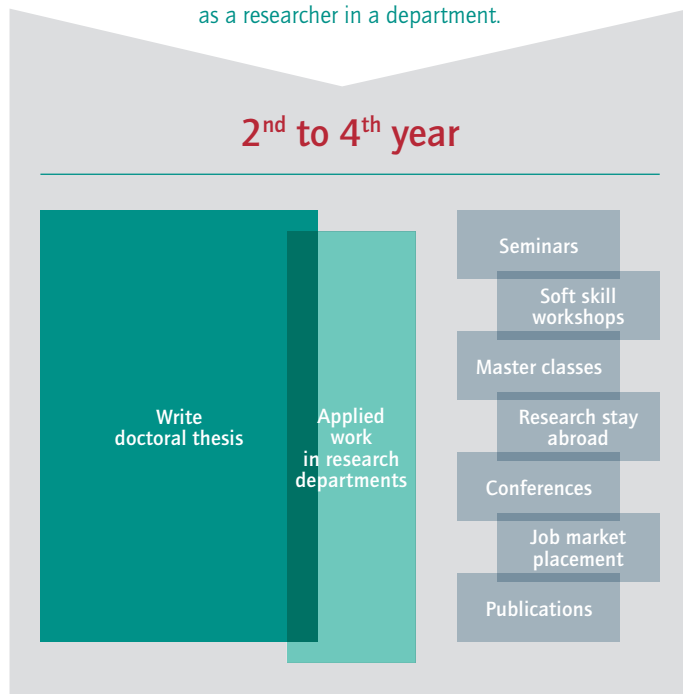

At DIW Graduate Center I received all the support I needed in terms of supervision, funding and invaluable collegial discussions. As a graduate, I was able to choose from excellent positions in academia and as economic practitioner.

PROGRAM STRUCTURE

Admission to 2nd year after successful completion of all courses, choice of supervisors and placement as a researcher in a department.

Apply now!

You hold a master's degree or diploma in economics or any related field?

PhD in Economics

with a full-time scholarship at DIW Graduate Center

Welcome to DIW Graduate Center!

Geared to excellence and relevance, DIW Graduate Center offers you a top PhD program in economics. We are dedicated to providing you with the best possible doctoral training scheme – to pave the way for your career in academic research and policy consulting.

We are proud to see our graduates competing and succeeding at international level, working at world-class universities like Cornell University, London School of Economics and University College London as well as in policy institutions such as the European Commission, European Central Bank, OECD and German Federal Ministries.

Every year, our well-designed program, internationally renowned faculty members and partnerships with some of Germany's top research institutions and universities attract many young and promising researchers from around the world.

Be one of them – browse our website to find out more about our program and apply today. We are looking forward to you!

Prof. Dr. Helmut Lütkepohl
Dean of DIW Graduate Center

BE A PART OF TOP-NOTCH TRAINING IN ECONOMICS

DIW Graduate Center offers a four-year program of in-depth training in economics. You will go through a high-level coursework curriculum and receive on-the-job training in DIW Berlin's research departments. Once completing the program, you will obtain a PhD from one of Berlin's universities.

Both the coursework and research at DIW Graduate Center have a strong applied component. Your research should focus on theoretical or empirical topics within economics and related social sciences.

As part of our top-class program, you will enjoy sponsored internships at prestigious institutions: DIW Graduate Center places its students at the International Monetary Fund, World Bank, Ministries or any other institution that best matches your interests.

BE ONE OF OUR SCHOLARSHIP STUDENTS

During the first year, each PhD student receives a scholarship of 1,200 euros per month. For the subsequent three academic years, there are different funding options: part-time research positions, external or DIW scholarships. There is also generous funding available for conference visits and other academic activities. We ensure that you have optimal conditions to fully concentrate on your research.

BE IN THE PERFECT PLACE TO DO RESEARCH: DIW BERLIN

DIW Graduate Center is hosted by the German Institute for Economic Research (DIW Berlin). The institute is one of Germany's largest economic think tanks and well known for its excellence in academic research and policy advice. About 200 resident researchers work in ten research departments that cover all relevant fields of economics.

Located at the heart of Germany's capital, DIW Berlin is your hub to a large research community in the Berlin area and beyond. Meeting scholars from universities and think tanks in seminars, courses and conferences allows you to build your own network. DIW Berlin offers abundant opportunities to get connected and exchange ideas.

Your research will be hosted by one of DIW Berlin's ten departments:

- Macroeconomics
- Forecasting and Economic Policy
- Development and Security
- Energy, Transportation, Environment
- Climate Policy
- Firms and Markets
- Competition and Consumers
- Public Economics
- Education and Family
- Socio-Economic Panel Study

BE A MEMBER OF A LARGE ACADEMIC NETWORK

DIW Graduate Center maintains close links with its partner universities inside and outside Berlin that award the PhD degrees. Many of the university scholars are also member of DIW Berlin and closely connected to the institute's work.

In addition, we co-operate with other PhD programs, international universities for research stays abroad, international organizations for internships and our alumni, who hold leading positions in renowned institutions.

BE ONE OF THE MOST SOUGHT-AFTER ECONOMISTS

As a graduate of DIW Graduate Center, you will be outstandingly qualified in the scientific analysis of economic and social policy issues: you will possess excellent methodological skills, in-depth experience in handling empirical data and detailed economic knowledge.

The successful placement of our alumni proves that DIW Graduate Center is the perfect starting point for your career in academia and economic policy – our graduates found positions at the London School of Economics, University College London, Cornell University, Mannheim University or the University of Cologne, just to name a few. Others went to top policy institutions such as the International Monetary Fund, OECD, European Central Bank, Deutsche Bundesbank, UNDP, German Federal Ministries and the European Commission.
